

## Our Ten week course

Here you design your own pieces & work at your own pace. Tracey will show you, step by step, how to achieve your designs, building your skills in metal clay week by week. Relax & enjoy the company of like minded friends while creating your own jewellery pieces.

## Private 1-2-1 Tuition

One to one tuition means you are in the driving seat. Tell us what you want to achieve & we will give you all the attention & encouragement you require. We will discuss your requirements so you develop your skills at your pace. Be assured we will steer you in the right direction to get you moving on your metal clay journey.

## Craftworx Travelling Workshops

Tracey loves to share her knowledge of metal clay. As a speaker & through workshops, she is known for her enthusiastic patient & approachable teaching style, offering a range of talks, demonstrations & workshops.

Tracey is happy to travel anywhere in UK, Europe or to international destinations to teach & share her passion for this amazing material.

## Talks Parties & Demonstrations

JEWELLERY WORKSHOPS

## What is PMC & Silver Clay?

PMC & Art Clay Silver is pure silver powder mixed with an organic binder & water. This clay-like material can be shaped moulded & sculpted into exquisite designs. When kiln, torch or gas hob fired, the binders burn away leaving 99.9% pure fine silver ready to be hallmarked.

## Craftworx Studio

The Craftworx studio is one of a cohort of artists' studios situated in superbly renovated barns on a working farm, set just outside the picturesque village of Bishop Burton in East Yorkshire on the edge of the Yorkshire Wolds. This remote location is easy to access with motorway, train, sea & air transport routes close by. Our students travel from all over the country & abroad, often to stay longer to enjoy the surrounding area.

The renovated barn conversion is light & spacious, providing a practical & very well equipped facility with all the essential tools & equipment for your use. As the only dedicated Metal Clay studio in the north of England, Craftworx provides the perfect environment for you to gain knowledge & confidence in working in metal clay. The studio offers a climate controlled environment for your comfort.

The studios offer full wheelchair access & facilities. A fridge is also available for you to store lunch or medication. There is plenty of car parking space available.

Each course has restrictions on the number of people that can attend in order to create an intimate atmosphere & ensure each student has plenty of one-to-one time with our expert tutor, Tracey Spurgin.

## Studio Courses & Workshops

Craftworx carefully plans each course or workshop to ensure your experience is packed full of hands-on experience from the onset, giving you the maximum opportunity to learn & complete a set task or project in the time scheduled.

Our target & project based workshops are divided into four different expertise levels to ensure each of our students finds the courses suitable for their own individual skill level. You are able to learn professional techniques & take these new skills to apply your own creative ideas. Whatever your level, there's a Craftworx course for you!

## Online Distance Learning Courses

Do you want to learn about metal clay but find that travelling is not convenient? Then why not join one of our online courses & learn how to use metal clay from the comfort of your own home. For a fraction of the cost of a studio workshop you get full detailed instructional pre-recorded videos. You can also ask questions, post pictures of your achievements & chat with other course members via a private Facebook group. We offer a range of online distance learning courses giving you outstanding value for money.

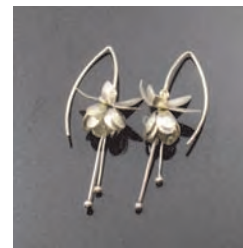

You will have full access for 12 months with the option to extend for another year for a small renewal fee. Tracey will pop in to the Facebook group page at regular intervals to answer questions, or to chat. You can join any of the courses at any time.

## Beginner Level

Aimed at the complete beginner with little or no experience, we can give you confidence & teach you the basic essential foundation skills. You will feel a real sense of achievement when you leave the studio & will be confident enough to start applying your new skills to your own creative ideas at home!

## Intermediate Level

If you feel you have a good level of ability but have areas where you could improve, our intermediate courses are ideal for you. We will assume you already have a basic level of understanding & experience & will help you to expand your skill set & knowledge so you can wow your friends & family with your new creations.

## Advanced Level

We aim to enhance your existing skills & truly challenge your abilities so you leave the studio with new ideas, fresh expertise & inspiration for your own creations. Take the challenge & move your metal clay journey forward to take you to the next level.

## Master Classes

Aimed at experienced enthusiasts, active artists or professional tutors, these classes are delivered by visiting expert tutors, teaching unique techniques & projects that they have developed. Their projects, skills & knowledge sharing are a truly inspiring experience.
